I'm a self-motivated PhD student who has developed research quantitative and analytical skills with a strong capacity to conduct independent research. I am interested in developing a career that combines teaching and research, while maintaining my interest in public engagement on ageing into disability.

## Educations

### University College London (2020-present, UK), PhD student

- Enrolled in the PhD programme of Epidemiology and Public Health.
- Self-funded research project titled 'Association between physical functioning and social relationships among older adults in China'.
- Joint supervisors: Professor Anne McMunn and Dr Baowen Xue, Department of Epidemiology and Public Health, UCL.

### Xiamen University (2017-2020, China), Master of Public Health

- Core modules included: Advanced Health Statistics, Advanced Epidemiology and Senior Health Service Management.
- Final-year dissertation on 'Heterogeneous health groups and healthcare utilization among older adults in China' based on research carried out on the Chinese Longitudinal Healthy Longevity Survey.

### Anhui Medical University (2012-2017, China), Bachelor of Management

- Major in Public Service Administration, concentration in Healthcare Management.
- Core modules included: Social Medicine, Epidemiology, Health Statistics, Health Economics, Leadership Science, and Healthcare Management.
- One-year training on Clinical Medicine.

## Teaching Experiences

### PGTA, Global Business School for Health UCL (Sep 2022- July 2023)

- Modules: Leadership and Management in Global Healthcare (GBSH0010) and Changing Health Systems (GBSH0007).
- Delivering weekly teaching session and organising group discussion in class.
- Marking and writing feedback.

### Training Assistant, Information Services Division UCL (Sep 2021-present)

- Module: Digital Skills Development, mainly in section 'An Introduction to R with Rstudio'.
- Helped the trainers during training sessions and group discussions.
- Assisted students with practical tasks.

### PGTA, Research Department of Epidemiology and Public Health UCL (Jan 2022- July 2022)

- Modules: Regression modelling, Health Inequalities over the Lifecourse.
- Hosted online sessions on Zoom.
- Marking and writing feedback.

## Teaching Assistant, Xiamen University (Jul 2018-Aug 2018)

- Module: Big data mining technology in health care.
- Pre-preparation before teaching sessions.
- Monitor attendance.
- Marking and writing assessment.

## Skills

- Analysis and mathematical modelling in R and SPSS.
- Leadership and Management.
- Photography.
